

Dear Friends,

I wish to thank you all! Because of your unwavering commitment, WMCS has become a trusted source of vital services for our community during this pandemic. On March 4th, we implemented sanitary best practices to make sure all employees, volunteers, and clients were protected and safe. Since then, six staff members and a band of volunteers have worked non-stop to make sure that we meet the needs of our community. Our top priorities are food security, rent assistance, sheltering the homeless, providing funds for other emergency expenses, and to make referrals to other necessary services.

West Marin Community Services has remained open through it all, serving the most vulnerable in our community during the Coronavirus pandemic. We are blessed to be able to lend a helping hand as we witness the struggles of so many during these extraordinarily challenging times. For the past six weeks, we have seen how public services, businesses, and schools have had to close their doors. Many of our friends and neighbors have lost their jobs—every day, we hear cries for help from residents of West Marin and neighboring towns. This traumatic event makes us all more fragile, and sometimes we feel unable to truly separate ourselves from the pain of others. Thankfully, the outpouring of support from our community—which has come in many forms—uplifts us and strengthens our resolve to keep our mission and purpose at the very center of our work.

Please know we are carefully monitoring the Coronavirus (COVID-19) situation and will adjust our services accordingly so that we can continue to serve the ever-evolving needs of our community.

Thank you for your support during these uncertain times!

Cuídate,

Socorro Romo, Executive Director

West Marin Community Services
